PROFILE

Data professional with 4+ years of experience focused on developing data-driven solutions that translate into business growth and strategic direction. Proven ability to lead projects from concept to deployment, developing expertise in predictive modeling and user segmentation. Gained specialized knowledge in AI, NLP, and LLMs demonstrated through advanced academic projects. Actively seeking opportunities to apply skills in building scalable AI and ML systems for real-world impact.

PROFESSIONAL EXPERIENCE

AGR Knowledge Services Pvt Ltd., Mumbai, India

Dec 2021– June 2024

Senior Analyst (Business Intelligence)

- Developed classification and clustering models to analyze consumer behavior and uncover product adoption gaps, enabling a retail client to address requirement gaps and achieve a 6% increase in market share
- Launched a reusable analytics framework leveraging SQL, Python, and Tableau to automate and streamline brand health and equity reporting, reducing analysis turnaround by 40% and ensuring consistent delivery across 7+ clients
- Served as SME for two clients, streamlining their data collection, transformation, and reporting processes, resolving complex issues, and optimizing data models to support data-driven decision-making

Analyst (Market Research)

- Automated data cleanup using Python, performed statistical analysis, and streamlined reporting for historical trends, sales forecasting, and market size estimates providing real time insights and boosting data accuracy by 30%
- Applied machine learning algorithms to performance marketing and omnichannel sales data to uncover high-value customer segments, channel attribution, user and product-level insights driving a 15% lift in marketing ROI

WhiteHat Education Technology Pvt Ltd, Mumbai, India

June 2020 – Dec 2021

Coding Instructor

- Delivered over 800 python coding classes to students aged 8 to 11, achieving trial class conversion rate above 21%

Mumbai Railway Vikas Corporation Ltd. (MRVC), Mumbai, India

Feb 2016 – Aug 2018

Business Analyst

- Collaborated with the deployment & execution team of the e-office software application throughout the implementation phases at the MRVC environment, tool was then utilized by over 300 employees at MRVC
- Collaborated with stakeholders to define scope, prioritize requirements, and translate them into JIRA user stories, enhancing sprint efficiency and accelerating feature rollout

TECHNICAL SKILLS

Programming & Data Science: Python, Pandas, NumPy, Scikit-Learn, Regression, Classification, Clustering, PCA, Time-Series Forecasting, Data Mining, TensorFlow, PyTorch, Keras, Logistic Regression, Support Vector Machines (SVM), Decision Trees, Random Forest, K-Nearest Neighbors (KNN), Naive Bayes, XGBoost, DBSCAN, K-means, Linear Regression, Polynomial Regression

Visualization & Apps & Frontend (UI): Tableau, Power BI, Excel, Streamlit, Gradio, React

Databases, Cloud (AWS) & Data Pipelines : SQL, PostgreSQL, T-SQL, Hive, Data Warehousing, Hadoop, AWS S3, Glue, Athena

LLM / NLP: OpenAI API (GPT-4o-mini, GPT-5-nano), RAG, sentiment analysis, sentence-transformers, FastAPI,

Project/Workflow: JIRA, Monday.com, Git, GitHub, Notion

Academic Projects

- AI-driven conversational resume:** A full-stack RAG chatbot (FastAPI, FAISS + MiniLM) with OpenAI gpt-4o-mini replacing static resumes, delivering fast, context-aware answers to queries while showcasing end-to-end technical capability.
- LLM-powered social listening system:** End-to-end pipeline on tweets using AWS S3/Glue/Athena; delivers sentiment analysis (twitter-roberta-base-sentiment), Aspect based sentiment analysis (bart-large-mnli), theme based clusters via BERTopic (e5-base-v2) with GPT-4o-mini, and executive summaries - delivering interactive summary report for stakeholders
- Customer Intelligence & Reorder Prediction System:** A LightGBM reorder prediction model (ROC-AUC $\approx$ 0.84) to make next basket suggestions. Segmented customers via unsupervised learning for precision marketing, applied Association Rules for bundling, and built a Word2Vec recommendation engine that helps product discovery and upsell & cross-sell opportunities

EDUCATION

Pace University, Seidenberg School of CSIS | MS in Data Science | GPA: 3.9/4

New York, Dec 2025

Mumbai University | Master of Management Studies (MMS) in Marketing | CGPA: 8.9/10

Mumbai, India, May 2020

Mumbai University | Bachelor of Engineering in Computers | CGPA: 6.6

Mumbai, India, June 2015
