

SAYALI SAWANT

New York, NY | ss02746n@pace.edu | (973) 687-5648 | [LinkedIn](#) | [Github](#) | Graduating in Dec 25

PROFILE

Result-oriented Data Scientist with over 4 years of experience leveraging SQL, Python, Machine Learning, and BI tools to turn market and consumer data into predictive insights and data-driven strategies. Led end-to-end projects on product adoption, competitive dynamics, and sales forecasting to support strategic decisions across marketing, sales, and product teams. Passionate about emerging technologies, explored deep learning, NLP and LLMs through academic and portfolio experience, and eager to apply these skills to real-world business applications.

PROFESSIONAL EXPERIENCE

AGR Knowledge Services Pvt Ltd., Mumbai, India

Dec 2021– June 2024

Senior Analyst (Business Intelligence)

- Developed classification and clustering models to analyze consumer behavior and uncover product adoption gaps, enabling a retail client to address requirement gaps and achieve a 6% increase in market share
- Launched a reusable analytics framework leveraging SQL, Python, and Tableau to automate and streamline brand health and equity reporting, reducing analysis turnaround by 40% and ensuring consistent delivery across 7+ clients
- Served as SME for two clients, streamlining their data collection, transformation, and reporting processes, resolving complex issues, and optimizing data models to support data-driven decision-making

Analyst (Market Research)

- Automated data cleanup using Python, performed statistical analysis, and streamlined reporting for historical trends, sales forecasting, and market size estimates providing real time insights and boosting data accuracy by 30%
- Led requirement gathering sessions with stakeholders to define business objectives, identify key data sources, and establish success metrics, ensuring alignment of data analytics initiatives with client goals
- Applied machine learning algorithms to performance marketing KPIs and omnichannel sales data to uncover high-value customer segments, channel attribution, user and product-level insights driving a 15% lift in marketing ROI

WhiteHat Education Technology Pvt Ltd, Mumbai, India

June 2020 – Dec 2021

Coding Instructor

- Delivered over 800 coding classes to students aged 8 to 11, achieving trial class conversion rate above 21%

Mumbai Railway Vikas Corporation Ltd. (MRVC), Mumbai, India

Feb 2016 – Aug 2018

Business Analyst

- Collaborated with the deployment & execution team of the e-office software application throughout the implementation phases at the MRVC environment, tool was then utilized by over 300 employees at MRVC
- Collaborated with stakeholders to define scope, prioritize requirements, and translate them into JIRA user stories, enhancing sprint efficiency and accelerating feature rollout
- Worked on data analysis and visualization with Tableau, MS Excel and PowerPoint to improve MRVC services by generating insights on data related to ticket fair, crowding predictions, and passenger behavior for million rows

TECHNICAL SKILLS

Programming Languages/Data Science/ML Algorithms: Python, Pandas, Scikit-Learn, MATLAB, Regression, Classification, Association, Clustering, PCA, Forecasting, Predictive Modeling, Data Mining, NLP, Tensorflow, Pytorch

Data Visualization Tools: Tableau, Excel, Power BI

Database Management and Cloud Technologies: SQL, PostgreSQL, T-SQL, Hive, Data warehousing, AWS

Project Management: JIRA, Monday.com

Academic Projects

- Developed machine learning models for multi-touch attribution, conversion prediction, and funnel stage analysis using large-scale ad impression data, enhancing accuracy of customer journey insights and channel ROI measurement
- Predictive Modeling and Customer Segmentation for Reorder Forecasting and Retail Strategy Optimization – Built a reorder prediction model using XGBoost and logistic regression, optimizing for F1-score. Applied PCA, KMeans, and DBSCAN to segment shoppers by purchase behavior, enabling targeted retention strategies and inventory planning

EDUCATION

Pace University, Seidenberg School of CSIS | MS in Data Science | GPA: 3.9/4

New York, Dec 2025

Mumbai University | Master of Management Studies (MMS) in Marketing | CGPA: 8.9/10

Mumbai, India, May 2020

Mumbai University | Bachelor of Engineering in Computers | CGPA: 6.6

Mumbai, India, June 2015
